For the 3rd year in a row, CCES is offsetting GHG/CO2 emissions for the Detroit Lions Thanksgiving Football Game. The game was offset by the CO2 sequestration from trees planted by The Greening of Detroit along with a ceremonial planting in Lafayette Central Park in Detroit with CCES, The Greening of Detroit and two of the Detroit Lions football players on Tuesday November 10th at 11:30am

## Industry and Regulatory News

October 14, 2009-Federal agencies must set 2020 greenhouse gas emissions reduction goals within 90 days and devise a string of plans to soften their environmental impacts, President Barack Obama ordered this week.

The Executive Order is intended to jumpstart a transition to a clean energy economy as climate change legislation moves through Congress, saving taxpayers substantial money in the process.

## In Other Regulatory News

New CO2 Regulations January 1, 2010

The scope of coverage of the proposed GHG Reporting Rule is broad. Many facilities and operations that have not previously been subject to these types of EPA air emissions reporting requirements will now be subject for the first time. Overall, companies that begin the process

of implementing internal programs to keep track of and reduce GHG emissions at an early date will be better able to identify the specific challenges they face and ways to mitigate risks. Climate change and broader sustainability assessments are best performed by a team comprised of attorneys, environmental consultants and in-house personnel to understand industry-specific and company-specific factors that allow the business to factor climate change requirements into both near-term and long-term planning....[Read Full Article](#)

Carbon Credit Environmental Services has over 30 years experience in helping companies identify and reduce their environmental liabilities.

## CCES WELCOMES

Ken Fleszar and Swarna Nochipatti.

Ken and Swarna bring civil, environmental and mechanical engineering experience to our team. They performed the Life Cycle Analysis (LCA) project for Masco Corporation's Delta Faucet division. An LCA can assist companies in promoting the "green aspects of their products".
